

2017 The Eyrie Vineyards

PINOT NOIR OUTCROP VINEYARD

THE VITICULTURE

Elevation: 280'-360' Planted: 1982-2000 Acres: 5

This vineyard is named for the underlying outcrop of rock ridging perpendicularly to the hillside. Outcrop overlooks our original vineyard. The five acres of Pinot here were planted to Wadenswil clone between 1982 and 2000. The elevation runs from 280' up to 360' and faces north north-east. In spite of the northern exposure, reflected heat from the Original Vines planting warms the site.

THE VINIFICATION

One of five cuvées that are produced identically, with the same fermentation regimes of wild yeast and small fermentation vessels, followed by aging in blends of cooperage with 12% new oak in each. The result is a fascinating journey up the Dundee Hills, from our lowest elevation Sisters vineyard at 220' up to our highest elevation Daphne vineyard at 860'. Each wine reflects facets of soil, site, exposure, and vine age that together capture a precise portrait of how variations in place can influence Pinot noir.

THE VINTAGE

Record breaking precipitation fell in February followed by heavier than normal rain through the spring. The summer was dry and quite warm; fortunately, our deeply rooted vines weathered it well, drawing on the spring rains soaked deep in the soil. Of some worry was late-summer smoke from forest fires in the Columbia Gorge many miles away, but a burst of rain two weeks before harvest washed the vines and refreshed them - and put out the fires in the Gorge. At the end of September, harvest began as moderate temperatures moved in. This vintage was closest to "normal" of the last five years, starting just before our historical average of October 5.

TECHNICAL NOTES

Fermentation:	Neutral oak
Production in cases:	168
Bottling date:	September, 2019
Appellation:	Dundee Hills
pH:	3.79
Total acidity:	5.0 g/L
Residual sugar	0.0
Alcohol % by volume	13.06
